YOONSANG LEE

(Eunice)

EDUCATION

Georgia Institute of Technology, Atlanta, GA, United States Aug 2023–Present

Ph.D. Student in Psychology | Expected August 2027

- Advisor: Randall Engle
- Dissertation: Suboptimality in Speed–Accuracy Tradeoffs: Reward Rate, Decision Policy, and Cognitive Ability (working title)

Freie Universität Berlin, Berlin, Germany Oct 2018–Mar 2022

M.Sc. in Social, Cognitive and Affective Neuroscience

- Advisors: Philipp Sterzer and Marcus Rothkirch
- Thesis: The Influence of Value Information on the Access of Visual Stimuli to Awareness

Ewha Womans University, Seoul, South Korea Mar 2013–Aug 2017

B.A. in Psychology; B.A. in Initiatives in Social Sciences (Scranton Honors Program)

- Advisor: Sung-ho Kim
- Thesis: The Experience of the Uncanny Valley Varied by Schizotypal Personality Trait

Lee, D., Lee, Y., **Lee, Y.**, & Kim, K. (2023). Functional connectivity in the mouse brainstem represents signs of recovery from concussion. Journal of Neurotrauma, 40(3–4), 240–249. https://doi.org/10.1089/neu.2022.0126

Kim, S. H., & **Lee, Y.** (2019). Perception of a surface split induced by globally inconsistent kinetic occlusion: Objects with salient parts break apart easily. Journal of Experimental Psychology: General, 148(3), 595. https://doi.org/10.1037/xge0000530

PREPRINTS

Lee, Y., & Engle, R. W. (2026). Memory and cognitive control in hypothesis sampling: Individual differences in resampling rejected hypotheses. PsyArXiv. https://doi.org/10.31234/osf.io/djcvt_v1

RESEARCH EXPERIENCE

Graduate Research Assistant Aug 2023–Present

Attention and Working Memory Lab, Georgia Institute of Technology | PI: Randall Engle

- Examine how attention control, working memory, and fluid intelligence relate to hypothesis sampling in a large-scale structural equation modeling study ($N \approx 300$) funded by an Office of Naval Research Multidisciplinary University Research Initiative (MURI) grant.
- Study suboptimal decision-making using drift-diffusion modeling.

Postmaster Researcher Feb 2022–Jul 2023

Korea Brain Research Institute | PI: Dongha Lee

- Conducted fMRI experiments on emotion perception using facial-expression stimuli.
- Designed and conducted a concealed information test study with eye-tracking glasses.
- Designed an experiment on how shipping fees affect purchase decisions.

Research Intern (Remote) Dec 2021–Apr 2022

Embodied Cognitive Science Unit, Okinawa Institute of Science and Technology Graduate University | PI: Tom Froese

- Conducted a systematic literature review on the role of active perception in cognition, and preprocessed EEG data from robot-arm experiments.

Research Intern Aug 2019–Sep 2019

Center for Adaptive Rationality, Max Planck Institute for Human Development | PI: Bernhard Spitzer

- Collected EEG data for decision-making experiments.

Research Assistant Aug 2016–Jul 2017

Vision and Mind Lab, Ewha Womans University | PI: Sung-ho Kim

- Created stimuli, programmed experiments, and collected and analyzed behavioral data for a study on object perception under kinetic occlusion.

PROFESSIONAL EXPERIENCE

Research Assistant Aug 2017–Jul 2018

Neurogazer Inc. | PI: Daeyeol Lee

- Contributed to the Brain Function and Intelligence Development in Children and Adolescents project: designed surveys, behavioral tasks, and trait assessment batteries; assisted with MRI scans and set up a mock MRI scanner.
- Managed corporate relations with Lumosity, Pearson, and Psychology Software Tools, Inc.; secured $91,000 in TIPS (Tech Incubator Program for Startup) investment through global pitching.

PRESENTATIONS

Lee, Y., Tsukahara, J., & Engle, R. W. (2026). When the Wait Matters: Differences in Cognitive Ability Contributions to Simultaneous vs. Sequential Visual Discrimination. Vision Sciences Society Meeting 2026, St. Pete Beach, FL, United States.

Lee, Y., & Engle, R. W. (2025). Unique contributions of fluid intelligence to hypothesis sampling behavior: Beyond attention control. Poster presented at the 66th Annual Meeting of the Psychonomic Society, Denver, CO.

Lee, Y., & Engle, R. W. (2024). Individual differences in working memory capacity and general intelligence in hypothesis sampling behavior. Poster presented at the 65th Annual Meeting of the Psychonomic Society, New York City, NY.

Lee, Y., **Lee, Y.**, Chun, J., & Lee, D. (2024). Neural evidence of how shipping fees impact purchasing decisions. Poster presented at the Cognitive Neuroscience Society Annual Meeting, Toronto, Ontario, Canada.

Lee, Y., Seo, Y., & Lee, D. (2023, May). Eyes are window to the knowledge: Application of eye-tracking in concealed information test. Poster presented at FENS Regional Meeting 2023, Algarve, Portugal.

Lee, Y., Seo, Y., & Lee, D. (2022, September). Differential topological organization of emotion dimensions. Poster presented at International Brain Initiative Daegu Conference 2022, Daegu, South Korea.

Lee, J., **Lee, Y.**, & Kim, S.-H. (2019, May). Objects with salient parts break apart easily: The influence of object shape in the perceptual organization of a dynamic event and its causal structure. Oral presentation at the Annual Meeting of the Vision Sciences Society 2019, St. Petersburg, FL, United States.

Lee, Y., & Kim, S.-H. (2017, January). Object cut perception induced by ambiguous kinetic occlusion: Objects composed of parts are easily cut. Oral presentation at the 54th Annual Conference of the Korean Society for Cognitive and Biological Psychology, Busan, South Korea.

HONORS AND AWARDS

2025 Psychology Interlab Grant ($2,000) — Georgia Institute of Technology

2022–2023 Young Brain Researcher Fellowship ($35,450/year) — Korea Brain Research Institute

2019–2021 DAAD Scholarship ($18,000) — German Academic Exchange Service

Aug 2017 Outstanding Thesis Award — Ewha Womans University

Jan 2017 Outstanding Presentation Award — Korean Society for Cognitive and Biological Psychology

SKILLS

Programming and software: MATLAB (SPM, EEGLAB), Python (MNE), R

Computational modeling: Drift-diffusion modeling

Statistical analysis: Mixed-effects modeling, Bayesian analysis, structural equation modeling

Data acquisition: fMRI, EEG, eye tracking (Tobii)

Languages: Korean (native), English (C1), Japanese (A2), German (A1)
